

**Early Childhood Institute**

**May 23 & June 2-6**

This course examines child development theory and current research related to curriculum, behavior, and assessment as pertaining to pre-kindergarten age children. Enrollment is limited to teachers who want to add-on the PreK-3 endorsement to a current K-6 or K-8 license. Minimum scores on the designated Praxis II tests must be acquired to complete the additional endorsement. Pre-meeting May 23.

**Classroom Management Strategies**

**June 2-6 & June 26**

This workshop will include a study of classroom management strategies which will center on interpersonal relationships, classroom organization and management, instruction, problem solving, behavior, and school-wide discipline. Post-meeting required.

**Hands-on Activities for the Content Areas**

**Jun 9-13 & June 27**

This make it-take it workshop will focus on content area strategies for elementary classrooms. Workshop participants will discuss the importance of questioning in relation to higher-order thinking while exploring classroom strategies that stimulate thinking and bring content area concepts to life for their students. You will create a manipulative to use in your classroom each day of the workshop. No textbook required. Materials Fee-- to be collected in class --\$25.00 (.20 cents per foot laminating fee extra). Post-meeting required.

**Learning and the Brain**

**June 9-13& June 30**

How should we teach in order to receive maximum response from the human brain? Brain research and its implications have created a new day for teaching and learning. Teachers and administrators must consider this new knowledge if we are to promote equity and excellence for all children. This workshop will explore this exciting realm of knowledge along with strategies which reshape classroom practice as they maximize student learning. Post-meeting required. Post-meeting required.

**Loosening the Wired Teacher: A Practical Approach to Instructional Technology**

**June 6 & June 16-20**

Building upon existing skills using technology in the classroom, students will evaluate and integrate software, explore Internet search and reliability, incorporate visuals using the digital camera and scanner, create a learning web, create computer-generated teacher-made activities, create PowerPoint presentations, examine legal usage of software, and tour the STAR Center. Pre-meeting required.

**Reading/Comprehension Strategies**

**July 7-11 & July 25**

Best practice reading and comprehension strategies for all students! Workshop participants will explore research-based active strategies that facilitate the construction of meaning from print. These strategies are appropriate for the stages of the reading process: pre-reading, during-reading, and post-reading. Post-meeting required.

**Celebrating Children's Literature**

**July 2 & July 14-18**

This workshop will celebrate the wonderful world of children's literature as we explore old and new favorites, Caldecott Medal winners, Coretta Scott King Award winners, and others. Participants will discover new materials and develop strategies which will enable them to use children's literature across the curriculum and grade levels. Pre-meeting required.

## **GRADUATE DEGREES IN EDUCATION UNION UNIVERSITY**

### **Master of Arts in Education M.A.Ed.**

A traditional master's degree composed of required core, concentration component, and education electives. May incorporate post-baccalaureate teacher licensure or add-on endorsement. Non-Thesis Option: 39 hours; Thesis Option: 33 hours.

### **Master of Education M.Ed.**

A premier master's degree for licensed classroom teachers that stresses the practical application of the structured program of 30 semester hours designed for cohorts of 24 fellow teachers. Completed in 14 months in a unique schedule utilizing Saturdays during your school year.

### **Education Specialist Degree Ed.S.**

An advanced graduate degree in Educational Leadership for the purpose of preparing school leaders. Offered along two tracks: (1) Administration and Supervision, a licensure track designed to prepare school principals and supervisors of instruction; and (2) Curriculum and Supervision, a non-licensure track designed for school leaders who desire knowledge of concepts and strategies for school and classroom leadership. The 39-hour program begins in February each year and is offered in the cohort delivery system primarily on Saturdays during the school year with some evenings utilized during the summers.

### **Doctor of Education Ed.D.**

A doctoral program designed to prepare instructional leaders, the Ed.D. blends theory, research, scholarly inquiry, and best practice. It is composed of the degree requirements for the Ed.S. Degree plus a Research Dissertation Component.

## **SUMMER WORKSHOPS IN EDUCATION**

### **Early Childhood Institute**
