

Guide to Sociology Major

Courses and Requirements

This outline is taken from the 2014-2015 catalogue. Please check off courses as you complete them. If there is choice offered, a blank has been provided for you to write in the course you select and check it off. All Sociology Major hours should total 42 hours. You may count a course as both fulfilling a major requirement and a core requirement (either general or specific), but you may not double count a course between your major and minor. If a course is required for both your major and minor, one course must be replaced with a suitable alternative per your advisor.
