

# DSM 5

You are invited to this quick and fun workshop on the newly launched DSM-5. Take this three-hour tour and learn just how different, necessary, and controversial the new diagnostic manual is for social workers and other mental health practitioners.

## LEARNING OBJECTIVES

1. Become conversant on hot button issues in the current debate surrounding the DSM-5.
2. Identify the major changes in the DSM-5 as compared to the current DSM-IV-TR.
3. Become familiar with practice applications of selected features of the DSM-5.
