FORMATTING FOR ANONYMOUS/CONFIDENTIAL SURVEY COVER LETTER

- Keep the language simple. Consent language should be written at an 8th grade reading level or below. Avoid use of technical terms. When using acronyms or abbreviations, spell out the full meaning the first time used.

- Compose the consent form to speak TO the participants, not ABOUT them, i.e. “You will be asked to…” instead of “The participant will be asked to…”

- The title of the study on the consent form need not mention the title of the study in the project outline form. Sometimes it is warranted to use a simpler title for the consent form.

- To see templates for other consent form models (parental consent, assent, etc.), please check the website: http://www.uu.edu/research/irb/forms/

- If the researcher is a student, please include researcher and advisor’s contact information in the Contact Information section.
