Mission Statement

The mission of the Sociology and Social Work Department is to educate students in various aspects of human society and human relationships from a Christian perspective. The Department offers three majors: Sociology, Family Studies, and Social Work; and three minors: Sociology, Human Studies, and Family Studies.

Sociology

The courses in Sociology are designed for two types of students: (1) those who desire pre-professional training for sociology or other related fields of human relations, and (2) those who seek to understand underlying principles in human relations, the role of custom and group psychology in collective behavior, the structure of society, the problems of group living, and the tendencies toward the improvement or the disintegration of society. Courses are designed to present both a practical and a scientific analysis of human relationships in the various areas of social life.

I. Sociology major—30 semester hours
   A. SOC 211, 417, 422
   B. Twenty-one SOC hours 15 of which must be junior and senior level.

II. Sociology minor — 21 semester hours

   B. Fifteen SOC hours, 6 of which must be upper-level

III. Human Studies minor — 21 semester hours
   A. Courses chosen from EDU, PSY, SE, SOC, and SW.
   B. Include two of the following: PSY 213, SOC 211, SE 225.
   C. Fifteen hours, 9 of which must be upper-level.

Family Studies

The family, as a basic building block of society, is critical to the functioning of society as a whole. The contribution of the Christian community to the development of leaders in family relations is crucial. The Family Studies major focuses on the development of the individual in the context of family and society. The program is designed to prepare students for (a) professional careers in a variety of human service areas; (b) leadership roles in church, school, and community; (c) personal roles in family living; and (d) graduate education.
The family studies curriculum covers the family life cycle, human development from infancy to old age, family relational dynamics, the family relationships with the other social systems. In addition, courses in methods of social research and an internship provide students with knowledge and skills necessary to either continue their study in graduate school or seek employment immediately following graduation.

Students graduating with a major in family studies who do not go on to graduate school typically seek employment as youth services workers, program directors, family life educators, and child life specialists, in public and private agencies dealing with family issues.
