Program Features
The curriculum for the program consists of two components, the 27-hour MAIS core curriculum and a 12-hour professional component approved by the program director. The delivery system for the MAIS core is non-traditional and based on a modified cohort model. A group of up to 20 students will pursue each of the nine MAIS courses together. The cohort will be divided into study groups of eight to ten students. Prior to the beginning of the semester, students will receive a reading list and assignments for the first course session. Instruction will begin with an intensive class meeting with the professor early in the semester. For the second segment of the course, students will meet with their study group on a weekly basis for discussion of research and project development. An MAIS program representative may facilitate these meetings, as the instructor deems necessary. Throughout this period, the instructor may also interact with students through on-line activities or discussions. Finally, the cohort will meet for a second intensive class meeting to complete the course. Dates and times for the intensive sessions and interim class meetings will be announced at preregistration each semester.
