

New Preceptor Orientation

ACPE accreditation standards state that preceptors must receive School specific orientation. To make this process easily fit your busy schedule, we have recorded a series of preceptor orientation videos which are linked below. These videos are intended to orient you to the Union University School of Pharmacy mission, our online evaluation system, and the specific performance evaluation tools used for the training and evaluation of our students. Each video is only a few minutes in length. If you have any questions, please contact us. **Once you have viewed the videos, please sign and return the attached form for our records.**

Mission and Vision of the Union University School of Pharmacy
